LUMBERJACK

The Frenchmen duo LUMBERJACK is part of this new generation of big room/EDM DJ/Producers with a similar energy to the best showmen's on this planet. Coming with a positive and mature attitude, they incarnate the most promising duo coming out of the old continent.

Their first two releases "Monarch" & "Kheops" went into the Top 20 Beatport in the first week of their release. Both records became reference tracks for many international DJs. Artists like David Guetta, Martin Garrix, Dimitri Vegas & Like Mike, Benny Benassi, Chuckie, Showtek and many more are constantly playing and supporting Lumberjack's productions. Indeed, they are being constantly playlisted at festivals such as Ultra Miami and Tomorrowland. Pete Tong even introduced Lumberjack on his famous show on BBC Radio 1 in June 2014.

In the near future the duo is releasing a remix of "What A Wonderful World" by personally request from Axwell and Bob Sinclar. In addition we should be expecting many new releases for the WMC and for the summer. In fact they have a releases coming out very soon on Chuckie's label “Dirty Dutch“.
